

Amended Complaint

Case # 21-cv-05349-VB
[Tripathy v. Feuz]
SDNY

Exhibit (G)

Albany County Supreme Court - Article 78 (Sanjay Tripathy v. DOCCS, Albany)

SWORN AFFIDAVIT

I affirm and attest all facts in this affidavit are true to the best of my knowledge and ability, under Penalty of Perjury. The sole purposes of this affidavit is for legal purposes only. I request my personally identifiable information be kept confidential due to the potential of retaliation by DOCCS [and DOCCS Staff].

I am a participant in DOCCS SOCTP [Sex Offender Counselling & Treatment Program] at Collins CF. My Static99R Assessment [sole scientific and industry standard assessment for SOCTP program level placement; approved and specified in the DOCCS SOCTP Manual] scores [see below] place me in the [Low, Moderate or High - see below based on Static99R score] below SOCTP program. Nevertheless Dr. Ryan Brotz [Psychologist for SOCTP Program at Collins CF] initiated an override [from Low to Moderate or Moderate to High; see below] which was approved by Brian Mcallister [Director SOCTP, Guidance & Counselling at DOCCS Albany], despite my Static 99R scores, with no approved, scientific and industry standard criteria and a lack of due process, in collusion, in an arbitrary and capricious manner, with abuse of discretion, which strongly indicates this was against my best-interest, self-serving to access more federal/state/taxpayer funds [more funds are needed/provided when SOCTP participants are overridden from Low to Moderate and from Moderate to High], to ensure more people [SOCTP participants] spend longer time [SOCTP participants] join/stay longer [which brings more funding and also is job security for core SOCTP staff]. DOCCS [despite requests and FOILs] has failed to provide documented [approved, scientific and specific to my case] criteria to justify my best-interest and judicious use of taxpayer resources.

Per DOCCS [Approved] SOCTP manual Static99R scores of -3 to 3 entail the low risk program, scores of 4 & 5 entail the moderate risk program and scores of 6 and above entail the high risk program.

Static99R Assessment Score: 1

Assessment per SOCTP Manual [Low/Moderate/High]: Low

US District Court, SDNY; Case#21-cv-05349-VB (Tripathy v. Feuz et. al.)

SWORN AFFIDAVIT

I certify to the following to the best of my knowledge under penalty of perjury.

Subject: SOCTP Program - Collins CF/DOCCS (The State of New York)

I fear retaliation so plead that my personally identifiable information not be shared with DOCCS/Defendants/Any DOCCS staff/employees or contractors.

1. Program Removal: I have personally heard in my SOCTP class during interactions with R. Brotz (Psychologist), C. Blonar (Social Worker), Jakiela (Social Worker), and T. Rogers (ORC/Counsellor), who are all part of the SOCTP program at Collins CF (including program leadership and Treatment Team) the following under which they have unequivocally stated that participants have been removed/discharged from the program and all/any participants will continue to be removed if -
 - Participants will have to admit to their crimes and discuss openly all sexually offending behavior, despite any claim of innocence or pending appeal. It was made clear they don't care what/why it happened as long as participants admit it verbally and in writing, even though it may be a lie/fabrication/completely untrue. Admission of guilt is non negotiable and integral to the program. This includes but is not limiting to a detailed/written sexual history. They were clear if they remove you from the program, your good time will be impacted, you may have to serve the maximum sentence, and it will negatively impact SORA, SOMTA and Civil Confinement.
2. ORC T Rogers and S.W. C Blonar were also clear participants will not graduate from the program, without explicitly admitting guilt, agreeing they in fact committed the crimes.

US District Court, SDNY; Case#21-cv-05349-VB (Tripathy v. Feuz et. al.)

SWORN AFFIDAVIT

I certify to the following to the best of my knowledge under penalty of perjury.

Subject: SOCTP Program - Collins CF/DOCCS (The State of New York)

I fear retaliation so plead that my personally identifiable information not be shared with DOCCS/Defendants/Any DOCCS staff/employees or contractors.

1. Program Removal: I have personally heard in my SOCTP class during interactions with R. Brotz (Psychologist), C. Blonar (Social Worker), Jakiela (Social Worker), and T. Rogers (ORC/Counselor), who are all part of the SOCTP program at Collins CF (including program leadership and Treatment Team) the following under which they have unequivocally stated that participants have been removed/discharged from the program and all/any participants will continue to be removed if -

- Participants will have to admit to their crimes and discuss openly all sexually offending behavior, despite any claim of innocence or pending appeal. It was made clear they don't care what/why it happened as long as participants admit it verbally and in writing, even though it may be a lie/fabrication/completely untrue. Admission of guilt is non negotiable and integral to the program. This includes but is not limitin to a detailed/written sexual history. They were clear if they remove you from the program, your good time will be impacted, you may have to serve the maximum sentence, and it will negatively impact SORA, SOMTA and Civil Confinement.

2. ORC T Rogers and S.W. C Blonar were also clear participants will not graduate from the program, without explicitly admitting guilt, agreeing they in fact committed the crimes.
